System Overview

E series 4MP IP cameras are cost-effcient solution which powered by H.265 and embedded face detection algorithm.

It delivers crystal clear images and supports industry-leading IVA smart event alarm.

Cloud function is built-in for every device, which is more convenient and exible for real-time and remote viewing.

Functions

H.265

Delivering high quality video with up to 70% bandwidth saving. H.265 is the evolutionary optimization of traditional H.264. The H.265 includes a series of encoding strategy such as Dynamic ROI-smart 2D&3D noise reduction.

IVA (Intelligent Video Analysis)

It allows detection on multiple object behaviors, such as Tripwire, Intrusion, Objects Detection and Target Counting etc.

Protection

With precise mechanical and rugged casing design, it stands against water and dust with industrial IP67 rank.

Supports ±30% input voltage tolerance, it could work safely in extreme unstable power condition.

With working temperature range -30℃ to +60 ℃, it works well in a variety of harsh outdoor environments.
