

Electronic Touch Doorplate System

Electronic Touch Doorplate System is featured by innovative design, convenient and simple operation. The system includes a mechanical bell chime that generates clear enough natural metallic sound. The doorplate system works stably with MCU programmable circuit control. Super-Luxurious appearance design and LED backlight glass touch-type button, Icon and words are clear at a glance. With 1 gang for "Room number" indicator, 1 gang for "Don't disturb", another for "clear up" indicator. Except the "room number" indicator, the gangs are inter-locking with each other for exactly hotel function design.

Electronic Touch Doorplate System is widely applied to hotels, motels and office buildings.
