

# iClock260

## Time Attendance Terminal

### Introduction

iClock260 is a 3.5-inch TFT screen Time Attendance Terminal. With the brand new firmware, it can provide an insuperable user experience.

iClock260 is compatible with the former SDK, ADMS and various types of USB flash disk. Moreover, RS232/485, TCP/IP, USB-client ensure more convenient communication between PC and the device. In addition, it supports data backup and retrieve in the case of mistakenly deletion.

### Features

#### Remarkable user experience

- \* Intuitive and stunning UI designed with the most popular and internationalized element.
- \* Interface operation adopts modularized hierarchical design. Simpler, better and more logical.
- \* Faster matching speed: Less than 0.5 second.
- \* 8 user-defined function keys.

#### Enhanced features and performance

- \* Multi-languages.
- \* Data backup and retrieve.
- \* Attendance record can be printed by external printer.
- \* Advanced User ID consisted of letters and numbers.
- \* Chip encryption for firmware protection.

#### Excellent Expandability

- \* Easy to extend functions and customize customers' requirements.

## Specifications

|                      |                                                                                                         |
|----------------------|---------------------------------------------------------------------------------------------------------|
| Fingerprint Capacity | 8000                                                                                                    |
| ID Card Capacity     | 10,000 (Optional)                                                                                       |
| Record Capacity      | 200,000                                                                                                 |
| Display              | 3.5-inch TFT Screen                                                                                     |
| Communication        | RS232/485, TCP/IP, USB (host and client)                                                                |
| Standard Functions   | Workcode, SMS, DST, Scheduled-bell, Self-Service Query,<br>Automatic Status Switch, Photo ID, T9 Input, |
| Optional Functions   | ID/Mifare/HID, Webserver, ADMS, Multiple Verify Mode, External Printer and Bell                         |
| Software             | ZKTime.Net, ZKTime 5.0                                                                                  |
| Power Supply         | DC 12V1.5A                                                                                              |
| Verification Speed   | ≤0.5 Sec.                                                                                               |
| Operating Temp.      | 0℃- 45 ℃                                                                                                |
| Operating Humidity   | 20%-80%                                                                                                 |
| Dimension            | 191.64*137.83*41.00mm (Length*Width*Thickness)                                                          |
| Net Weight           | 1.05 kg                                                                                                 |
