## Multi-Biometric T&A and Access Control Terminal

ZKTeco has released the uFace302 Multi-Biometric T&A and Access Control Terminal which supports 3,000 face templates, 4,000 fingerprint templates and 10,000 cards (optional). It is equipped with ZKTeco latest hardware platform and algorithm, which provide clients with a brand new UI and user-friendly operating interface, bringing them a smooth using experience. With the advanced face algorithm and multi-biometric verification technology, the terminal's security level of verification is greatly enhanced.

### Features

- 3,000 face and 4,000 fingerprint templates
- Multi-languages
- High verification speed
- Advanced and user-friendly UI
- Chip encryption for firmware protection
- Optional built-in battery backup providing approximately 4 hours of continuous operation
- Easy to extend functions and customize client's requirements
- One face template is registered for one user only
- Able to detect whether the face is an actual face or a photo, enhancing the security level of verification

# Specifications

|                               |                                                                                                                       |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Display                       | 4.3-Inch Touch Screen                                                                                                 |
| Face capacity                 | 3,000                                                                                                                 |
| Fingerprint capacity          | 4,000                                                                                                                 |
| Card capacity                 | 10,000 (optional)                                                                                                     |
| Logs capacity                 | 100,000                                                                                                               |
| Communication                 | TCP/IP, USB Host, RS485, WiFi(Optional)                                                                               |
| Standard Functions            | Automatic Status Switch, Self-Service Query, Work Code, SMS, DST, T9 Input, 9 Digit User ID, Scheduled Bell, Photo ID |
| Interfaces for Access Control | 3rd Party Electric Lock, Door Sensor, Exit Button, Alarm                                                              |
| Wiegand Signal                | Output                                                                                                                |
| Optional Functions            | ID/MiFare Card, Wi-Fi, 3G, ADMS, 200 mAH Backup Battery                                                               |
| Power Supply                  | 12V 3A                                                                                                                |
| Operating Temperature         | 0 °C- 45 °C                                                                                                           |
| Operating Humidity            | 20%-80%                                                                                                               |
| Dimensions                    | 193.6*165.2*86mm (Length*Width*Thickness)                                                                             |
| Package Weight                | 1.6 kg                                                                                                                |

## Configuration

## What's in the Box

uFace302

Back Plate

Power Adapter

Lines for Access Control Interface

Mounting Paper

Screws and Holders

Screw Driver

Paper ruler
